IO2 CCIC Mapping Exercise Guide - How to create CCIC Google Maps

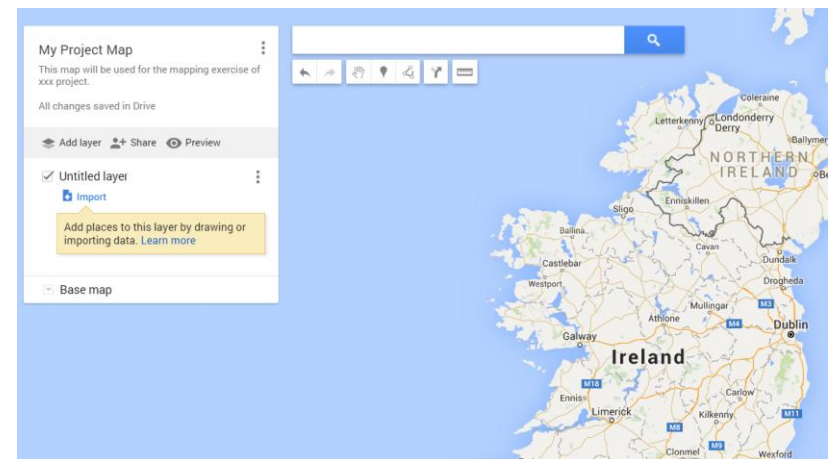

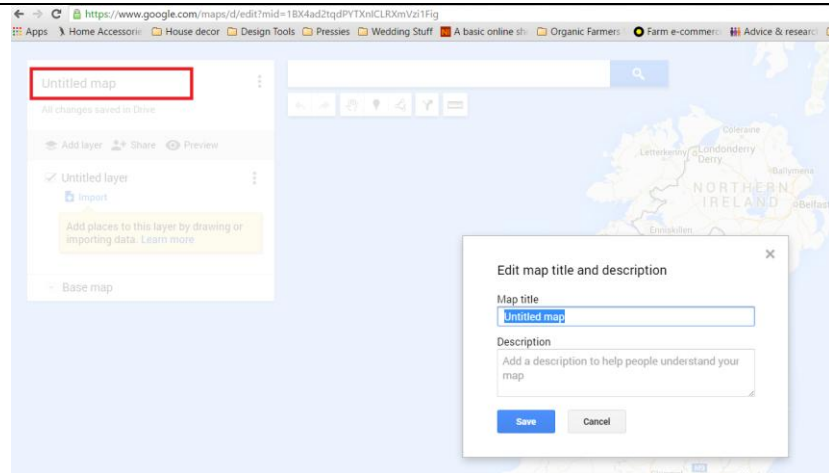

Erasmus+

Create a new map

1.	Sign into Google with your Google Account	— you must create one if you do not have one — www.google.com
2.	Open Google My Maps.	
3.	Click Create a new map, this will open up a new Google Map	

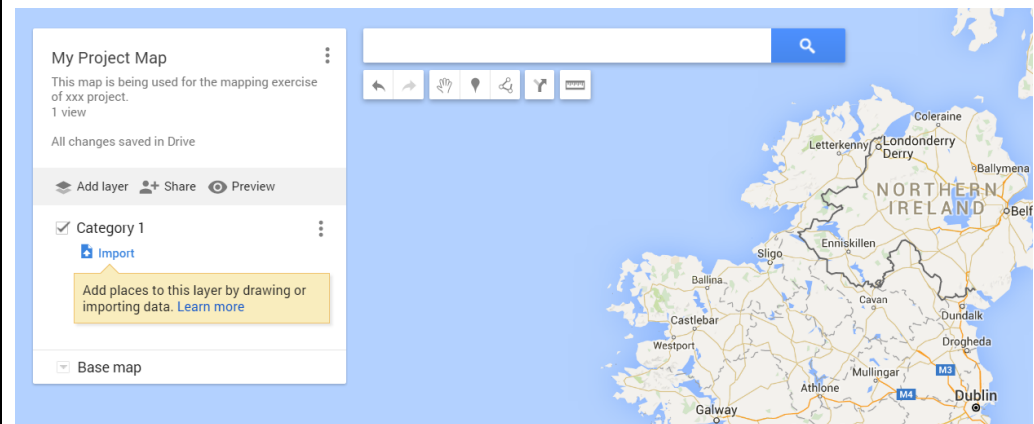

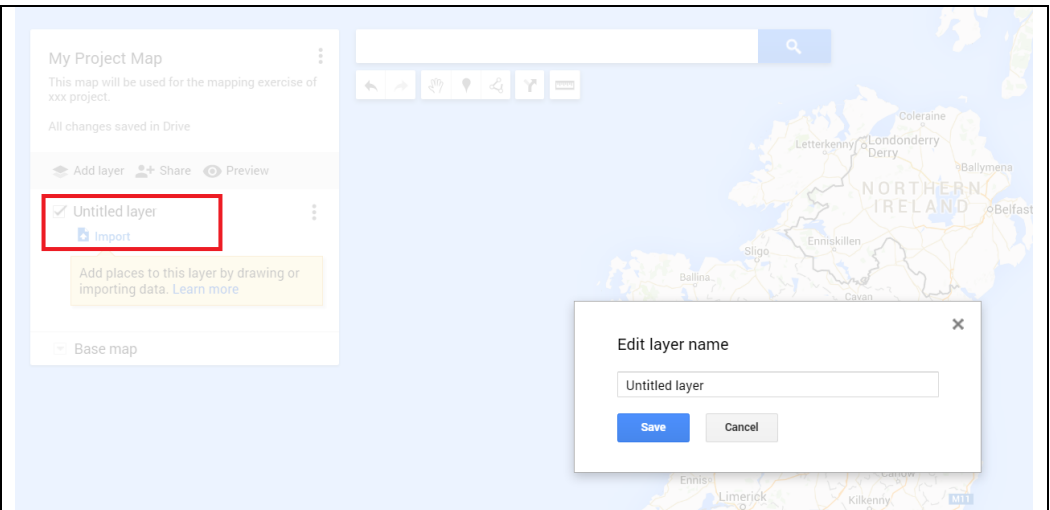

4. Name your map – click on the Untitled map text on the box on the left (see red) and edit your maps name.

Give your map a description and hit save

Eg. Map with new project name and description.

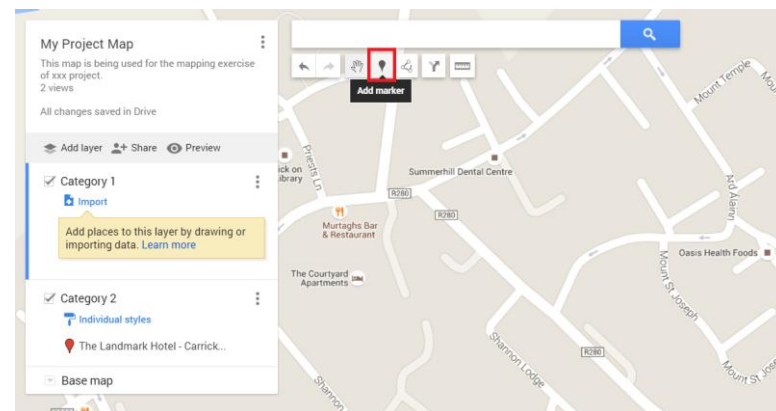

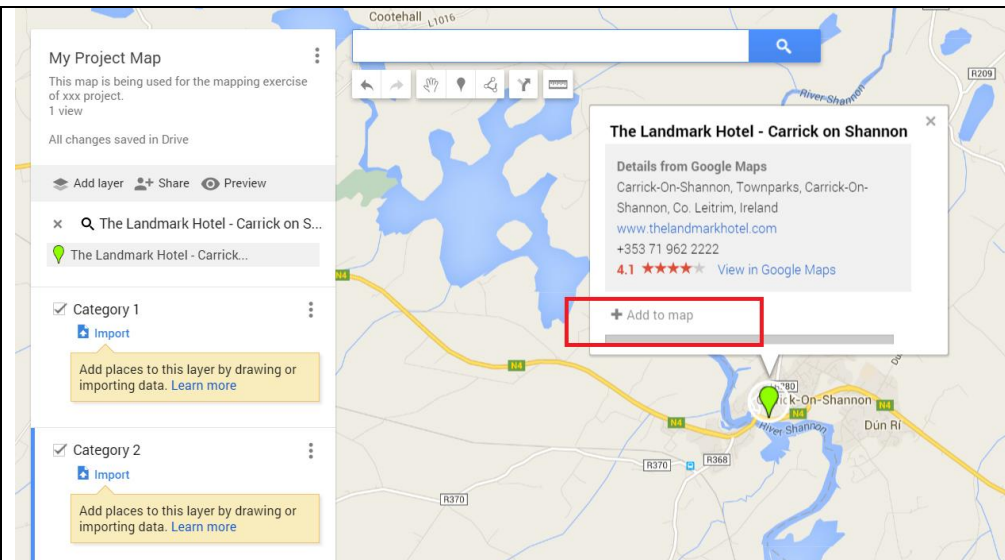

5. ~~Add your Map Categories – Edit and add layers. Click on the Untitled Layer and edit the name to suit your map categories. Rename the layer and click save.~~

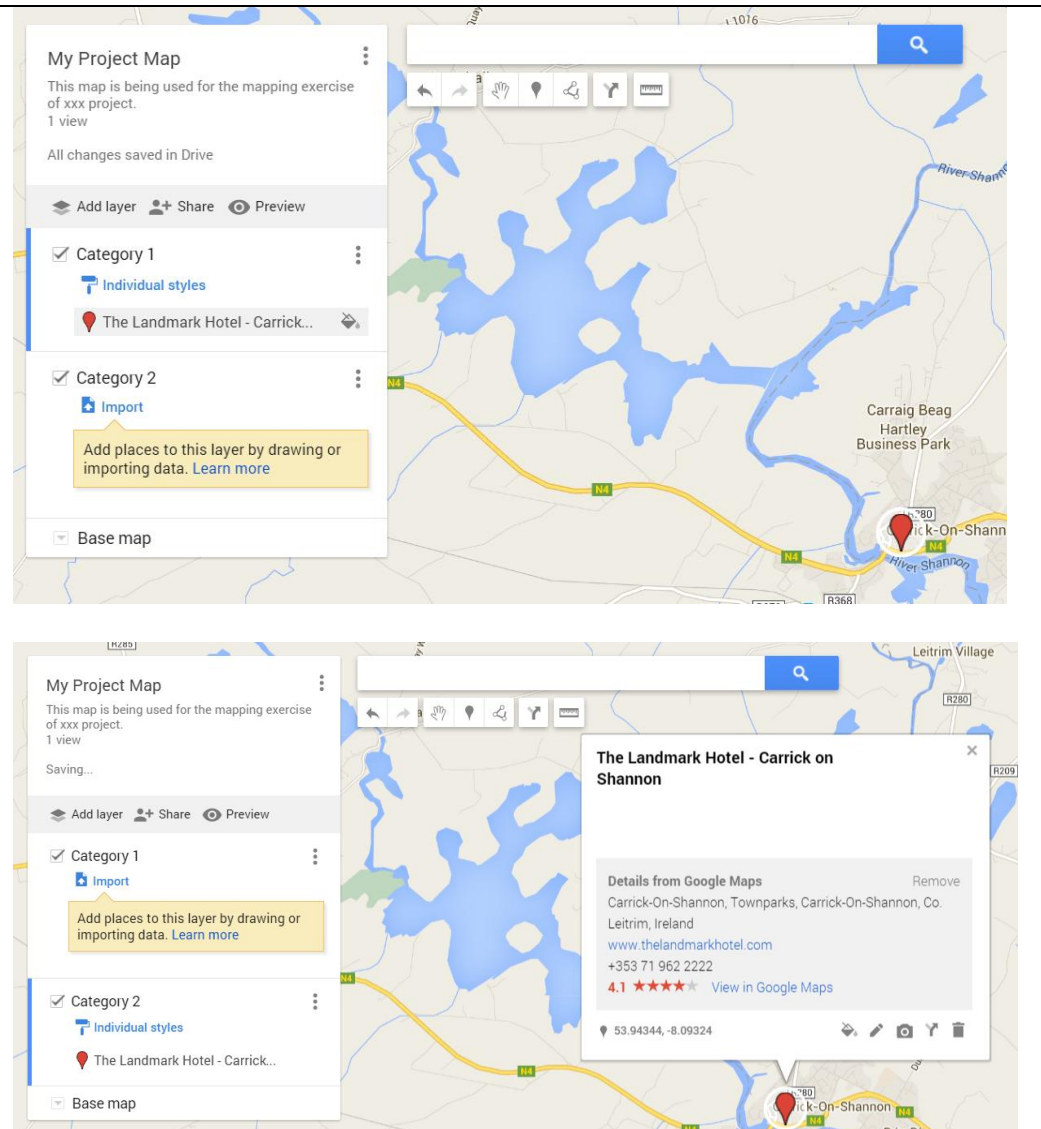

Map with new category name

6.	<p>To add a new layer or category, click add layer and repeat step 5 to rename and save layer.</p>	
7.	<p>Add a location to the map. Search for the name of the business or organisation eg The Landmark Hotel, Carrick on Shannon. Select chosen business from the drop down menu and click add to map.</p>	

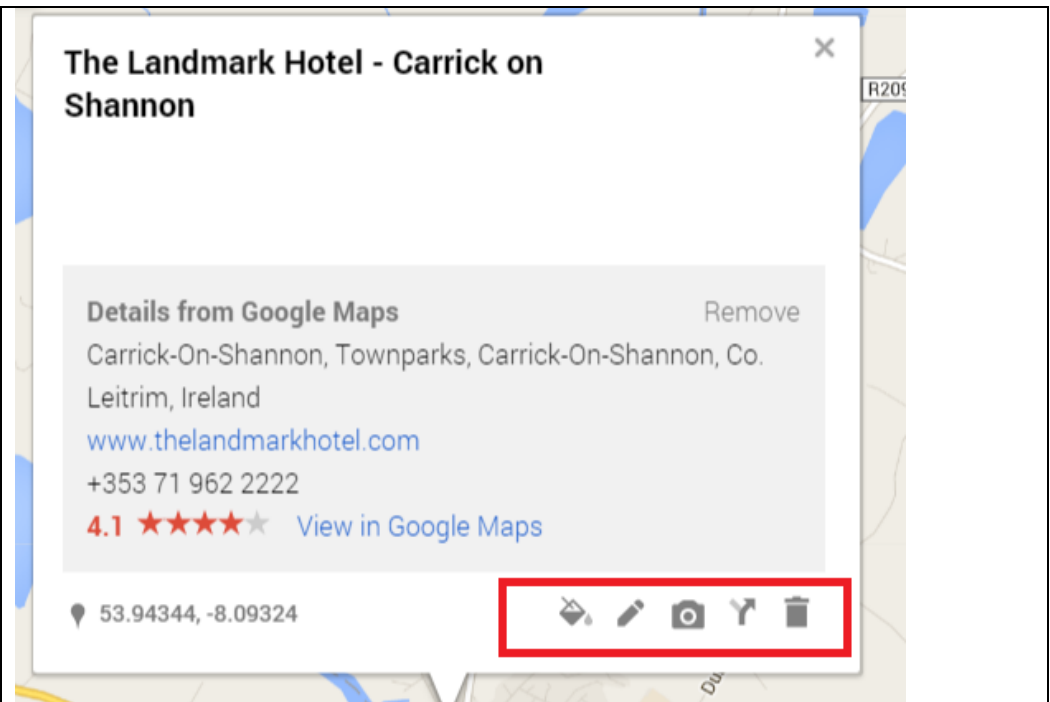

Note: if the business is not listed you can search by address/location and manually add a listing by clicking on the add marker icon and dropping in place.

8. ~~Business has been added to the map. Drag and drop functionality allows you to move the location it up and down in the category listing.~~

9. Now that your location is added, you can edit the listing
- click on the icons to change the pin colours (use a different colour for different categorisations), add more text, add an image etc.
